FINANCIAL HIGHLIGHTS

- **Rental properties NOI up 38% to \$26.5 million** – rental properties NOI increased by 38% over the prior year fourth quarter. Acquisitions were the primary driver behind this growth, contributing \$4.9 million for the three-month period.
- **Comparative properties NOI up 7%** – comparative NOI increased by 7% and 9% for the three- and twelve-month periods, respectively, driven by rising rental rates across the portfolio. For the three-month period, comparative office and industrial NOI increased by 6% and 8%, respectively, and for the 12-month period by 8% and 13%.
- **Funds from operations per unit grew by 3% to \$0.76** – on a per unit basis, FFO increased by 3% to \$0.76, primarily due to additional revenue generated by acquisitions as well as growth in rising rental rates. For the twelve-month period, FFO per unit increased 6% to \$3.00 from \$2.82.
- **Adjusted funds from operations per unit decreased by 10% to \$0.52** – for the quarter, AFFO per unit decreased to \$0.52 from \$0.58, largely due to the impact of the sale of the Eastern real estate portfolio. Improvements in AFFO for the twelve months to \$2.29 from \$2.19 reflect the impact of acquisitions and the benefits of effectively managing leasing and capital costs.
- **Reinstatement of Distribution Reinvestment Plan (“DRIP”)** – in connection with the sale of our Eastern real estate portfolio, the DRIP was suspended in June 2007. Starting with the January 2008 distribution, payable on February 15, 2008, the DRIP has been reinstated.
- **Reorganization of the Trust and qualification under “REIT Exception”** – as of January 1, 2008, the Trust has satisfied certain specified conditions (“REIT Exception”) and will not be subject to the specified investment flow-through trust (“SIFT”) Rules and the Normal Growth Guidelines.

OPERATIONAL HIGHLIGHTS

- **Portfolio occupancy remains strong at 96.7%** – the overall percentage of occupied and committed space remains strong at 96.7% and the average in-place net rent increased by more than one-third to \$13.49 per square foot. “The fundamentals in our portfolio remain very strong. Our properties are well occupied and we continue to secure large rent increases as leases expire.” said Michael Knowlton, President and Chief Operating Officer.

* Sold to GE

Acquisitions completed during 2006 and 2007 have increased NOI by approximately \$4.9 million for the three-month period and \$26.6 million for the twelve-month period.

During the third quarter, Dundee REIT sold a 16.5 million square foot portfolio of properties located primarily in Ontario, Québec and Newfoundland (the “Eastern Portfolio”) to GE for a total purchase price of approximately \$2.3 billion, including the assumption of liabilities by GE relating to the Eastern Portfolio. The Trust’s operating portfolio now comprises office and industrial properties located primarily in Western Canada.

Acquisitions subsequent to year-end

Subsequent to year-end, the Trust acquired the AIR MILES Tower, a 322,000 square foot office building located in downtown Toronto for approximately \$92.4 million.

CAPITAL INITIATIVES

- **\$1.6 billion returned to unitholders; reduction in units outstanding** – On closing of the sale of the Eastern Portfolio to GE, Dundee REIT received cash proceeds of approximately \$1.48 billion, all of which were used to redeem approximately 29.9 million outstanding units for \$47.50 per unit. In addition, GE invested \$165 million and purchased approximately 3.5 million outstanding units at a purchase price of \$47.50 per unit, giving GE an approximate 16% equity interest in Dundee REIT. As a result, a total of 33.4 million issued and outstanding REIT units were acquired, representing approximately 66% of the voting units of the Trust that were then issued and outstanding.
- **New equity issues** – On March 12, 2007, the Trust completed a public offering of 3,700,000 REIT Units, Series A at a price of \$40.75 per unit for gross proceeds of \$150.8 million. On March 29, 2007, the Trust issued an additional 495,000 REIT Units, Series A pursuant to the exercise of an over-allotment option for gross proceeds of approximately \$20.2 million, increasing the total gross proceeds of the offering to approximately \$170.9 million. The proceeds from the offering were used to fund acquisitions.
- **Convertible debenture issues** – On January 14, 2008, Dundee REIT completed the public offering of \$125.0 million principal amount of convertible unsecured subordinated debentures with a coupon rate of 6.0% per annum due December 31, 2014. The net proceeds of this offering were approximately \$119.5 million (after deducting underwriters’ fees and expenses of the offering). The net proceeds of the offering will be used for general trust purposes, including for funding possible future acquisitions.
- **Conversion of debentures** – During the year, the Trust issued 2,739,923 REIT Units, Series A upon the conversion of \$78.1 million of the principal amount of 6.5% and 5.7% debentures. Subsequent to year-end, an additional 7,178 REIT Units, Series A were issued upon the conversion of \$0.2 million of the principal amounts of 6.5% and 5.7% debentures.
- **Debt** – During the fourth quarter, the Trust entered into \$155 million of new mortgage financing at an average interest rate of 5.5%, lowering its overall weighted average interest rate to 5.76% (December 31, 2006 – 5.95%). The interest coverage ratio climbed to 2.51 times (December 31, 2006 – 2.46 times), reflecting the Trust’s ability to cover interest expense requirements. After factoring the convertible debenture, the Trust enters 2008 with \$160 million of cash, \$16.4 million of variable rate debt exposure and only \$19.3 million of debt maturities.
