FINANCIAL HIGHLIGHTS

- **Rental properties NOI up 36% to \$25.8 million** – rental properties NOI increased by 36% over the prior year third quarter. Acquisitions were the primary driver behind this growth, contributing \$4.8 million to the NOI for the three-month period.
- **Comparative properties NOI up 11% to \$10.7 million** – the 11% growth in comparative properties NOI was the highest ever recorded by the Trust, reflecting occupancy growth and rising rental rates across the portfolio. Comparative NOI increased by 9% for the office portfolio and by 15% for the industrial portfolio.
- **Funds from operations per unit grew by 4% to \$0.77** – on a per unit basis, FFO increased to \$0.77 from \$0.74, primarily due to additional revenue generated by acquisitions as well as growth in occupancy and rising rental rates, offset by the loss of earnings from disposed properties. Total funds from operations grew by 9% to \$29.3 million.
- **Adjusted funds from operations per unit increased by 4% to \$0.58** – total AFFO increased by 9% to \$22.1 million. Improvements in AFFO reflect the impact of acquisitions and the benefits of effectively managing leasing and capital costs.

OPERATIONAL HIGHLIGHTS

- **Portfolio occupancy reaches 97.0%** – the overall percentage of occupied and committed space was 97.0% and the average in-place net rent increased by more than one third to \$13.27 per square foot. Even with this impressive growth in rental rates, in-place rents remain substantially below market rent. “Over the next two years, approximately one third of our space is coming up for renewal. We are confident that we will continue to close the considerable gap between our contract rents and market rents as lease contracts mature.” said Michael Knowlton, President and Chief Operating Officer.

Affiliates of Dundee Corporation continue to hold a 16% equity interest in the Trust.
